

iCoil
Manual Coil Punch & Electric Inserter

The Akiles iCoil Series is perfect for a small office or for any user who needs to occasionally bind coil documents. This combination binding machine offers an inexpensive way to bind coil documents easily and efficiently. Capable of punching up to 15 sheets of 20lb. paper per lift, both the iCoil-41 and iCoil-41 Plus are designed for low volume color coil applications while providing the style and mechanical efficiency you come to expect from Akiles machines. This small punch makes a previously expensive binding style available to a whole new group of users, offering features such as a foot pedal controlled electric inserter, a coil size selector, side margin control, and vertical punching for easy alignment.

iWire

iWire
Wire Punch & Binding Equipment

With its modern and compact design, the iWire punch and binding machine is the perfect all-in-one solution for any office environment. The simple 2-step setup and 15 sheet single punch capacity makes your binding job easier than ever! Equipped with built-in wire master selector to help determine correct wire size to be used for any given book thickness. Includes vertical punching to ensure document alignment with every punch. Individually cast-hardened and heat-treated steel punch dies ensure years of trouble-free operation. The economical iWire also features an ergonomic handle, wire closer selector, wire scratch and anti-dust cover.

iLam
Professional 13.4" Pouch Laminator

The Akiles iLam 240 and 340 Pouch Laminators were designed with a heavy duty motor and high quality components to render many years of trouble-free performance. This laminator comes equipped with a digital temperature control with a two color indicator knob, controlling both power and heat levels. The Akiles iLam 340 is easy to operate and provides you the durability and finished quality you would expect from an Akiles machine. Heated rollers in the Akiles iLam 240 and iLam 340 render crystal clear and bubble free lamination. The Akiles iLam Series is able to laminate all standard pouches, of various thicknesses, composition, or melting point. The Akiles iLam 340 is easy to use with an ingenious easy jam release and reverse button, making your laminating tasks worry free.
