

Novus Innovation

Since 1949, the Novus name has been synonymous with quality and innovation. Whether we're developing new technologies, or improving our existing products, we continue to lead the industry in design, performance, and reliability. For commercial applications, Novus Heavy Duty Staplers can staple up to 210 sheets and accommodate a variety of staple lengths.

Novus Long Arm Stapler

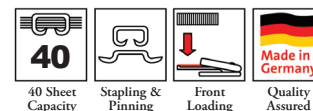

The Novus B17 is a high performance stapler with an 11¾" reach. It produces either a permanent clinch or temporary pin. The dual guide system ensures the legs of each staple

has even pressure until it clinches your documents. This long arm stapler features an adjustable depth guide to ensure you staple at the desired depth each and every time. It's

the ideal device for stapling across large documents, binding booklets, and everyday stapling.

Heavy Duty Staplers

Novus staplers are designed and developed in Germany and feature an innovative Anti-Blocking System (ABS) which prevents the possibil-

ity of a jam. A dual staple guiding system further ensures trouble-free performance by providing even pressure on the staple legs. An auto-

matic bypass system is standard on most models and provides the convenience of using larger staples on smaller projects.
