DESTROYIT
PAPER SHREDDERS

Feed table with powered conveyor belt feed system. Convenient centralized oiler. Electronically controlled safety guard. Safety lock and key, main switch, and emergency stop button. Automatic power cut-off when cabinet is opened or shred bag is full. Automatic reverse and power cut-off when overfed. Thermal switch prevents overheating. Push button control panel with optical indicators to show operational status. 2 automatic speed modes: POWER for bulk feeding large quantities of paper and SPEED for high speed shredding of lesser amounts. Soft metal resistant, hardened steel cutting shafts take CDs / DVDs, hardbound documents, and 3-ring binders. Dual 3 phase motors rated for continuous operation. Fully enclosed gear box housing. Mounted on heavy duty casters. Rear opening cabinet door and mobile shred bin with bag mounting frame for easy replacement of shred bags.

Security level P-2	11/32" x 1 1/2" - 3"	Sheet capacity	600-700
P-3	1/4" x 2"		300-400

PAPER SHREDDERS

EASY-SWITCH – intelligent multifunction control element indicating the operational status of the shredder with varying color codes and back-lit symbols. Electronic control prevents overfeeding: automatic reverse and refeeding in case of paper jams. Main switch and emergency cut-off switch. Robust shredding heads with special hardened cutting shafts made of high-quality steel. Automatic oil injection on the cutting shafts during shredding operation for constantly high shred performance. Automatic stand-by after 30 minutes. Powerful three phase motors. Thermal motor protection. Large shred compartment with door on the rear of the machine. Plastic bag suspension with pull-out mechanism on wheels for easy removal of the full bag. Automatic cut-off when shred bag is full or the door is open. Mobile on casters. Convenient transportation width of 27 1/8" (without side tables).

Security level P-2	1/4"	Sheet capacity	75-95
P-3	1/4" x 2"		65-82

**4606 HIGH
CAPACITY PAPER
SHREDDER**

Open tilting feeding hopper for crumpled paper. Feeding paddle for effective insertion of crumpled paper into the cutting head. Second feed opening located under the hopper for flat paper and computer printouts with automatic start/stop via a photo cell. EASY-SWITCH – intelligent multifunction control element indicating the operational status of the shredder with varying color codes and back-lit symbols. Electronic control prevents over feeding: automatic reverse and re-feeding in case of paper jams. Foldaway feeding table. Main switch and emergency cutoff switch. Robust shredding heads with special hardened cutting shafts made of high quality steel. Automatic oil injection on the cutting shafts during shredding operation for constant high shred performance. Automatic standby after 30 minutes. Powerful three phase motor with thermal motor protection. Front door and mobile shred bin for easy removal of the full shred bag. Automatic stop when hopper or front door is opened, or when the shred bin is full. Mobile on casters.

Comprehensive SPS safety package

Easy Switch control element uses illuminated color codes and symbols to indicate operational status and functions as an emergency stop switch; patented, electronically controlled, transparent safety shield in the feed opening; automatic power cut-off when cabinet is opened or shred bin is full; automatic reverse and power cut-off when overfed; double protection against overheating; Zero Energy Consumption sleep mode cuts off power supply after 30 minutes of inactivity.

Automatic start and stop controlled by photo cell. Patented Electronic Capacity Control (ECC) indicator prevents jams by monitoring sheet capacity levels during operation. Lifetime warranty on the cutting shafts (strip- and cross-cut models). Quiet and powerful single phase motor rated for continuous operation. High quality wooden cabinet mounted on casters. Convenient, environmentally friendly shred bin does not require disposable shred bags.
