

Duramax Ultimate Punching Machine

The DuraMax Ultimate Electric Punch machine is perfect for high volume binding users with continuous production requirements. This versatile machine offers interchangeable dies for plastic coil (4:1 pitch), plastic comb binding and wire (3:1 pitch) patterns. With a maximum electric punch capacity of 30 sheets (20lb paper) and a maximum punching length of 19.68" (50cm) it can handle almost any size presentation.

This heavy-duty workhorse features all metal construction and is mounted on its own stand. Performance features include foot pedal control, margin depth control and paper holders on both sides.

- Punch Patterns - Plastic Comb Binding, Plastic Coil (4:1 pitch) and Wire (3:1 pitch)
- 19.68" punching allows for wider sheets
- Electric punch up to 30 sheets (20# paper)
- Margin depth control
- Foot pedal control
- Paper holders on both sides
- Mounted on a heavy duty stand
- Excellent for continuous production
- 1 year limited warranty

MINIMAX PUNCH

Minimax Punching Machine

The foot pedal activated Minimax Punching Machine offers a maximum binding capacity of 25 sheets of 20lb paper, with a punching length up to 14" (legal size). Interchangeable dies with disengageable pins allow punch patterns for a wide range of binding systems, including plastic coil, comb and wire bind. The Minimax also offers side margin control, paper holders on both sides and margin depth control. The machine is mounted on its own stand.

- Punching length for legal size documents
- 25 sheet recommended maximum punching capacity (20lb paper)
- Interchangeable dies with disengageable pins
- Side margin control
- Foot pedal for improved operator efficiency
- Paper holders on both sides
- Margin depth control
- Mounted on its own stand
- 1 year limited warranty
