

ID CARDS

DocuCopy ID cards come in a variety of types to fit any job. The integrated laminated ID card can be printed directly onto the lamination and is compatible with all major OEMs for digital high-speed and office print equipment.

Features:

- Designed to print on inkjet, toner, and Indigo presses and copiers.
- Innovative embossing dots ensure a flat stack for easy processing and reliable variable print performance.
- Designed to work with post processing equipment for in-house mailing.
- All types are customizable by paper type, sheet size, and card position for a sheet that truly fits the job.

DocuCopy ID Card Styles:

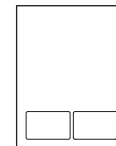

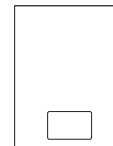

- *DocuPerf* – Economical punch-out laminated paper card
- *DocuFold* – Fold and stick for a double-thick card, print both sides in one pass.
- *DocuPeel*[™] – Tear- and water-resistant synthetic card available in a range of thicknesses. Patent pending
