

FD 6102 Series Low Volume Folder / Inserter

The Formax FD 6102 Low Volume Folder Inserter is the latest in entry-level folder/inserter technology. Fully automatic adjustments can be made with the color touchscreen display, which guides users through each step of setup. It offers up to 15 programmable fold applications, and can fold documents up to 14" in length, with half, letter, double parallel, and no fold capabilities. The clamshell design provides easy access to the paper path, and double document detection helps prevent the error of over-filling envelopes with extraneous statements in mailings - make sure the right document goes to the correct recipient. The FD6102 can insert at speeds of up to 1,360 pieces per hour. Each feeder holds up to 100 sheets of paper, and for single sheet mailings, fill both feeders with the same document and use "swap mode" - when the first feeder empties, the machine automatically starts pulling from the second without interruption for even greater efficiency. The Formax FD 6102 Low Volume Folder Inserter is ideal for offices, schools, and other businesses that want to save time and reduce handling of their mailing. With a duty cycle of up to 5,000 per month, it's a great way to speed up and simplify low volume folding and inserting.

FD 6102

Formats: one sheet folded and inserted, one sheet folded with return envelope nested and inserted, two collated sheets folded and inserted, two collated sheets folded with return envelope nested and inserted, or folding only without inserting.

The power and reliability of larger machines with the ease of operation required for the office environment.

FD 6202

FD 6202 Series Folder / Inserter

The 6202 Series brings advanced folding & inserting technology and flexibility to the office environment. The unique *AutoSet™* feature allows one-touch job setup by automatically measuring paper lengths, envelope sizes and fold lengths. Recurring and frequent jobs run in *AutoSet™* can also be stored as one of 20 programmed job settings for hassle-free setup and operation. The powerful 6202 Series accurately folds up to five sheets of paper at the same time: up to 2,200 pieces per hour or up to 15,000 per month. Three configurations are available: The FD 6202-Basic 2 is equipped with two automatic sheet feeders. The FD 6202-Advanced 1 includes one sheet feeder and one insert/BRE feeder. The FD 6202-Advanced 2 includes two sheet feeders and one insert/BRE feeder. The FD 6202-Advanced 2 includes two sheet feeders and one insert/BRE feeder.
