The **FlashGuard 13R10 Heavy-Duty Laminator** is ideal for print shops, large school systems, universities, and offices. With a **rugged metal housing that stays cool to the touch**, it easily laminates and protects photos, documents, signs, menus, IDs, and more. The 13R10 features a **10 heavy-duty roller system** for fast, reliable sealing, as well as **variable temperature and speed settings**. Operation is simple using the **graphics-based LCD control panel**, and users can even store up to **2 custom jobs**. It handles pouches up to 13" wide, up to 14 mil, with **maximum laminating thickness of up to 3mm**. It ships with a **starter pack of 3 mil laminating pouches**. The FlashGuard 13R10 is a durable, affordable, high-quality laminating solution.
