GBC® ULTIMA™ 55 THERMAL ROLL LAMINATOR

The GBC Ultima 55 makes it simple to preserve your printed tools. The convenience package of the pivot table and EZLoad™ film system make film loading a breeze. Multitasking is easy with auto shut off - start your project and know it will automatically shut off.

FEATURES:

Comprehensive Lamination

Get clear results for a wide variety of projects up to 27". Laminator warms up in less than 10 minutes and is perfect for large posters and banners.

User-Friendly Features

Laminator includes front and back stop buttons, a built-in trimmer and footage counter, alignment guides, and slow forward and reverse function. Machine also has standby mode and auto shut off.

EZLoad Technology

EZLoad film (sold separately) has color-coded end caps that ensure the film is loaded correctly. Laminator is compatible with GBC EZLoad gray end cap roll film.
