SEAL® 62 PRO D LAMINATOR WITH PRODUCTIVITY PACK

The SEAL 62 Pro D is a 61" wide mounting laminator and encapsulator offering industrial performance at exceptional value. Productivity pack includes easy-in feed table and slit to make laminating a snap while the fan banks cool the machine down when both rolls are heated. With fully adjustable dual temperature, speed and pressure settings, and designed on sturdy uni-frame construction, the 62 Pro D is ideal for the more experienced operator. Also includes comprehensive safety system with self checking eyes and emergency stops.

TUV SUD Certified in US/Canada

FEATURES:

Dual Heated Rollers

Dual heated rollers make most applications, including encapsulation, easy while exceptional roller technology delivers better processing of soft substrates.

Maximum Versatility

Laminates graphics up to 61" wide at speeds up to 20'/minute. 1 1/2" manual nip adjustment allows for precise operation and accommodates most substrates. The roll-to-roll operation (from bottom unwind) accommodates applications including vehicle wraps. Includes five un-wind/take up shafts and a film saving flip up pull roll system.

Easy to Use

Auto-grip upper take-up shaft for winding release liners, stay-put swing-up feed table keeps table up for easier media handling, flip up rollers for no hassle loading, foot switch and ergonomic touch pad control panel. Image guide ensures alignment and roll trough keeps rolled prints in place.
